Board Member Spotlight

Dr. Kristina Campos-Davis
Baylor University

Tell us about yourself and how you became a United Way Board Member

I have always worked to be a part of my community and volunteer in my community. When a friend asked me to join the Board, I was excited to volunteer.

Why do you love United Way?

I love the idea that United Way combines its efforts to help lots of different nonprofits. They are able to make a big difference in the Waco-McLennan County community.

We are always working to create an impact in our communities, not just actionable impact, a sustainable one, too. What is a sustainable impact you've seen out in our communities this year?

This is where United Way is in a unique position; because of its model of taking local donations and keeping those donations with local nonprofits, it is able to create a more sustainable impact on the community. People continue to give because they see the good work it is doing in their community. I'm especially proud of the work that United Way is doing to help in the health care sector. So many of our neighbors need our help to find affordable, good health care and United Way is helping them do that.
